

your master plan for convention housing®

Orchestrator

Travel Planners makes it easy to keep an eye on housing for VIPs, guests and staff.

Our new Orchestrator™ tool links all those bookings automatically in a single password-protected site. Just log in once and you can review, manage and even make reservations for any or all of these important attendees.

Orchestrator puts you in complete control.

- Invite guests to book their own rooms...handle the reservations yourself...or ask the specialists on your Travel Planners team to take care of them.
- All bookings appear on your master site. New reservations and changes are updated in real time. You can even add separate billing instructions to each record.
- Our new Comp Tracker™ lets you view an online, real-time tally of nights earned, assign them electronically, and generate instant comp allocation reports. You'll never overlook available credits or waste time tracking them manually.
- Create your own reports and room lists on demand, 24/7. You can even sort reservations by attendee, hotel name or arrival date.

It's all part of the plan...at no extra cost.

Orchestrator is a standard feature of every Travel Planners housing program, no matter how big your guest list is.
