

IT'S ALL PART OF THE PLAN

Micromanage housing for your VIPs, guests and staff the easy, automated way.

Introducing Orchestrator – a breakthrough room management tool.

Now it's simpler than ever to make and manage room reservations for all of your VIPs, speakers, and other special guests including staff members. Travel Planners' new Orchestrator tool links all those bookings automatically in a single password-protected site. Just log in once and you can review, manage and even make reservations for any or all of these important attendees. You can even add separate billing instructions to each record.

Let them book their own. Or do it for them.

Orchestrator is so hospitable that you can grant the most appropriate kind of access to each guest. Want to treat VIPs with kid gloves? You can handle the reservation yourself...or ask the specialists on your Travel Planners team to take care of it. You can also invite guests to book their own rooms. However individual reservations are made, they all appear on your master site. You get complete flexibility without giving up any control.

Your master site updates in real time.

Other housing providers require you to log in multiple times to see unique reservations. Need a room list? They'll assemble it manually in a spreadsheet that may be out of date 15 minutes later. But Orchestrator seamlessly aggregates full reservation detail. New bookings and changes are reflected instantly. You can create your own reports and room lists on demand, 24/7. You can even sort reservations by attendee, hotel name or arrival date.

It's all part of the plan... at no extra cost.

Orchestrator is a standard feature of every Travel Planners housing program. You get the convenience of one-stop room management. You'll earn a great reputation as a cordial, buttoned-up host. And there's no cost at all, no matter how big your guest list is.
