

Powerful Tools, Innovative Solutions

As a Travel Planners client, you're plugged into the housing industry's best suite of services...high-tech solutions that make a real-world difference to the success of your event... all at no extra cost.

IT'S ALL PART OF THE PLAN

AuditPro

We locate attendees who stay at your event's hotels but don't book through the official program. Our audit ensures that you get accurate counts and avoid attrition penalties.

DataSync

Our advanced technology helps users reserve and register in one session. It's a secure, one-click tool that ups the chances that you lock in both transactions ASAP.

DirectConnect

Travel Planners electronically transmits reservations to most hotels, eliminating middlemen and data entry errors.

eChoice

Automated online waitlisting is here. If every room in a block is sold, guests are notified when we receive a cancellation. More attendees get their first choice; you prevent prime rooms from sitting empty.

Event Headliner

Travel Planners offers you customizable space at the top of our reservation site to market your event or offer other relevant information.

Groups Wizard

Our new, user-friendly Group Booking process lets groups handle all booking and block management by themselves online. They get control. You get fewer calls.

Impact Protection Plan

Attendees who don't find their hotels in the official program can now go to our affiliated company, Quikbook.com. We credit reservations made on this award-winning site to your event.

List IQ

We automatically compare housing and registration lists to find registrants who haven't booked a room...and vice versa. It helps us sell smarter by sending fewer, more relevant emails to attendees and exhibitors.

Myhousinginfo.com

Your own password-protected site gives you confidential 24/7 access to detailed reports, customized to fit your specific needs.

Orchestrator

Now you can make and manage reservations for all VIP's, special guests and staff at one master site. You get a real-time update with just one log-in — no manual worksheets or searches for individual records.

ResOpen

Our exclusive technology makes it easy to limit or time-date stamp reservations made from the moment your booking site opens.

ResAssure

Every attendee and exhibitor gets a hotel confirmation number upfront — guaranteed. ResAssure prevents check-in problems and will also monitor over-sells and walks.
